MIKE WINER

WEB DEVELOPMENT AND DIGITAL DESIGN

MIKEWINER.CA

BIOGRAPHY

I am Mike, a full-Stack web developer, digital designer, adventurer and more! I studied theoretical physics in university and spent a few years working and traveling around the world. I love problem solving and learning new skills and concepts. Now I currently work out of Toronto as a self-taught freelance web developer and digital designer. Checkout my website for my full development and design portfolio.

EXPERIENCE

FREELANCE WEB DEVELOPMENT
Self-Employed | 2019 - Present

Building, designing, and marketing bespoke websites for local businesses and startups. Main front end tools include Gatsby(React), Sass, and GraphQL. Icon and logo design are done with Adobe Illustrator. Basic Google Analytics and SEO are included.

ENGLISH INSTRUCTOR
Kurabuchi English Village | 2018 -2019

English Instructor at NPO Sodaterukai, at their Mountain School, Kurabuchi Eigomura. Teaching English through a nature based curriculum. During this time achieved business level proficiency in Japanese through self-study.

SNOWBOARD, SKI, TENNIS INSTRUCTOR
Go Snow (Japan) & Whistler | 2016-2018

Worked seasonally as both Ski and Snowboard Instructor in the winter and Tennis Instructor in the summer. Responsibilities included organizing and running camps and lesson planning. I hold advanced teaching certification in both skiing and snowboarding.

EDUCATION

WEB DEVELOPMENT
Udemy: The complete Web Developer | 2019

Online Web Development Bootcamp. Front-end topics includes HTML, CSS, Javascript, Node.js, React, Back-end topics include Node.js, Express, SQL, databases and REST API. Coded several full-stack web-apps such as SmartBrain, and RocketBird. Visit my portfolio for details and code-base.

SUMMER RESEARCH PROJECT
Canadian Institute Theoretical Astrophysics | 2013

Worked under the supervision of Dr. Erickcek, studied Dark Matter Microhalos. Responsibilities included running N-Body Dark Matter simulations on Scinet, Canada's largest super computer cluster, and data analysis of the simulations. Daily workflow consisted of bash scripting and data analysis/visualization done with Python.

BACHELOR'S DEGREE
University of Guelph | 2012-2016

Studied Theoretical Physics, Also taking many upper year math and computer science courses, such as Linear Algebra, Data Structures and Object Oriented Programming.

LANGUAGE SKILLS

Born in Toronto, Canada. Native English speaker and JLPT N2 certificate Japanese speaker (business level). Achieved in 1.5 years of study. Basic translation and interpretation work was done while in Okinawa.

ENGLISH 100%

JAPANESE 80%

DEVELOPMENT & DESIGN SKILLS
